

Disinfecting Box & Pacifier

smilo

Warning: Do not tie a pacifier around a child's neck as it presents a strangulation danger.

Smilo pacifier recommendations:

- Prior to first use sterilize the pacifier by boiling for five minutes.
- After boiling allow the pacifier to cool for an additional five minutes.
- Inspect the pacifiers condition before and after each use.
- Replace a pacifier if any signs of wear or damage are shown.
- To clean, we recommend rinsing in warm water and household detergent, boiling in hot water for 2-3 minutes or cleaning in your dishwasher top tray at 140°F.
- Made of high-quality BPA-free materials.

Smilo pacifier disinfection box:

- Clean the box before first use, we recommend rinsing in warm water and household detergent, boiling in hot water for 2-3 minutes or cleaning in your dishwasher top tray at 140°F.
- Do not store within sterilizing solution.

For your childs safety and health: Warning

- This article is not a toy. Keep out of reach of children due to risk of injury.
- Do not put over the nose and mouth as that could cause injury or suffocation.
- Before each use carefully inspect the product. Throw away at first sign of weakness or damage.
- Please note that it is absolutely necessary to observe the cooling time of the water (approx 10 min.) to prevent injury!
- Please keep the product instructions.

Advertencia: No amarre el chupete alrededor del cuello del niño, ya que presenta un peligro de estrangulación.

Recomendaciones para el chupete Smilo.

- Antes del primer uso, esterilice el chupete hirviéndolo durante cinco minutos.
- Después de hervirlo, espere cinco minutos más hasta que el chupete se enfríe.
- Inspeccione la condición del chupete antes y después de cada uso.
- Reemplace el chupete si muestra signos de desgaste o daño.
- Para su limpieza, recomendamos enjuagarlo con agua tibia y detergente doméstico, hervirlo en agua caliente durante 2-3 minutos o lavarlo en la bandeja superior del lavavajillas a 140°F.
- Hecho de materiales de alta calidad sin BPA.

Caja de desinfección para chupete Smilo:

- Limpie la caja antes del primer uso; recomendamos enjuagarla con agua tibia y detergente doméstico, hervirla en agua caliente durante 2-3 minutos o lavarla en la bandeja superior del lavavajillas a 140°F.
- No almacenar en solución de esterilización.

Advertencia para la seguridad y la salud de su hijo:

- Este artículo no es un juguete. Mantener fuera del alcance de los niños ya que existe riesgo de lesiones.
- No lo coloque sobre la nariz y la boca ya que podría causar lesiones o asfixia.
- Inspeccione cuidadosamente el producto antes de cada uso. Deséchelo al primer signo de debilidad o daño.
- ¡Tenga en cuenta que es absolutamente necesario observar el tiempo de enfriamiento del agua (aproximadamente 10 minutos) para evitar lesiones!
- Por favor, conserve las instrucciones del producto.

Microwave steam cleaning:

1. Rinse the pacifier under running warm water.
2. Fill the disinfecting box with water up to the level line (don't overfill).
3. Place the pacifier into the disinfecting box with the pacifier bulb facing downwards.
4. Close the lid until it clicks once - this makes sure the box is still a little open to allow steam to escape.
5. Place the box into your microwave for 60 seconds (800w to 1000w).
6. The box will be hot! Allow it to cool for approximately 10 minutes before removing it from the microwave.
7. Drain the remaining water while leaving the pacifier inside.
8. Close the lid tightly (two clicks) to keep the pacifier inside clean and ready for use.

Newborn
0-2 months

Stage 1
0-3 months

Stage 2
3 - 9 months

Stage 3
9+ months

Medical-Grade Silicone Baglet:
After washing or sterilizing, you may see tiny droplets of water inside the baglet. This is normal, the droplets will evaporate away.
