

Feeding Bottles

smilo

Smilo bottle and nipple instructions and guidelines:

- Prior to first use wash all components in hot soapy water.
- Wash all bottle components before every use. This nipple, bottle and bottle components are all dishwasher safe. Please use the top rack only.
- Made of high-quality BPA-free materials.

Cautions:

- Do not use Smilo bottles in the microwave or with microwave sterilization methods. Only sterilize with counter top sterilizers or by placing them in boiling water for a few minutes.
- Never use a microwave to warm fluid inside of bottle. Serious burns can result.
- Prior to every use please inspect the nipples. Replace the nipple if it shows any sign of wear. Signs of wear include but are not limited to - tearing, cracking or a change of shape.
- Prolonged or continuous fluid sucking can cause tooth decay.
- Remove the bottle from mouth when the child is not feeding.
- This bottle sleeve is not a toy. Use only under adult supervision.
- This bottle sleeve should not be used as a teether.
- Please keep product instructions.

Instrucciones y normas de la mamadera y tetina Smilo:

- Antes del primer uso, lave todas las partes con agua caliente y jabón.
- Lave todas las partes de la mamadera antes de cada uso. La tetina, la mamadera y las partes de la mamadera se pueden lavar en lavavajillas. Solo utilice la bandeja superior.
- Hecho de materiales de alta calidad sin BPA.

Precauciones:

- No calentar los biberones Smilo en microondas ni utilizar métodos de esterilización con microondas. Esterilizar únicamente con esterilizadores de mesa o colocándolos en agua hirviendo durante unos minutos.
- Nunca use el microondas para calentar el líquido dentro de la mamadera. Se pueden producir quemaduras graves.
- Antes de cada uso, inspeccione las tetinas. Reemplace la tetina si muestra algún signo de desgaste. Los signos de desgaste incluyen el desgarro, agrietamiento o cambio de forma.
- La succión prolongada o continua de líquido puede causar caries.
- Retire la mamadera de la boca cuando el niño no se esté alimentando.
- La funda para botella no es un juguete. Usarla solo bajo supervisión de un adulto.
- La funda para botella no debe utilizarse como un mordedor.
- Por favor, conserve las instrucciones del producto.

Flow Rate Indication

0	1	2	3
Size 0 Newborn 0 - 2 months	Size 1 Slow Flow 2 - 5 months	Size 2 Medium Flow 5 - 9 months	Size 3 Fast Flow 9+ months

Anti-colic, mom-like milkduct

Patented technology, unique to Smilo

Leak-resistant venting + travel disc

Easy-grip sleeve

Medical-grade, BPA-free materials

Dishwasher safe

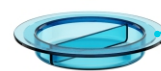

Bottle

5 floz & 10floz sizes. (150 & 300ml).
BPA free & phthalate free crystal clear Polyamide.

Smilo nipples are made from medical-grade silicone that has a natural tendency to 'heal'. The soft material can, over time, reduce or close the atmospheric vents' precision gap.

To maintain the nipple performance periodically give the vent a light squeeze before use. Pop! Perfect again.

Travel Disc

Seals between the nipple and bottle to ensure the bottle is leak-free when you're out-and-about.
